Professional Summary

Informatics Engineering graduate with experience in web application development, IT support, and network monitoring. Skilled in developing applications using Laravel, PHP, MySQL, JavaScript, and Next.js, with hands-on experience in troubleshooting hardware and software, network configuration, and system monitoring using LibreNMS. Completed an internship at the Semarang Communication and Information Office involving website development and public data management. Published cybersecurity research in a SINTA 3 indexed journal and eager to contribute in Software Development, IT Support, or Network Operations roles.

Professional Experience

Internship - Dinas Kominfo Kota Semarang Jan 2025 – Feb 2025

Government Agency Responsible for Public Information Systems and Digital Services

- Contributed to the rebranding and redevelopment of the WisSemar tourism website using Next.js, Bootstrap, HTML, and CSS to improve user experience and modernize the platform's interface.
- Collected, validated, and managed GIS records for 600+ schools across Semarang, improving data accessibility for municipal information systems.
- Built responsive user interfaces supporting multiple device resolutions and screen sizes.
- Collaborated with government stakeholders to align platform functionality with public information requirements.

Education

Universitas Dian Nuswantoro - Bachelor of Informatics Engineering Sep 2022 - Feb 2026

GPA: 3.41 / 4.00

Projects

Gifty

- Developed a gift recommendation web application using Laravel and MySQL.
- Implemented filtering and preference-based recommendation features to help users discover suitable gift ideas.
- Designed responsive user interfaces optimized for desktop and mobile devices.
- Structured application logic and database schemas to support future feature expansion.

Basket Monitoring Application

- Developed a basketball player monitoring platform using Laravel, PHP, and MySQL.
- Developed performance tracking and statistical analysis features that enable coaches and team managers to monitor athlete development and compare player performance metrics.
- Designed database structures for efficient storage and retrieval of player information.
- Created dashboard interfaces to improve visibility of athlete performance data.

IT Support & Network Administration Practice

- Performed LAN cable crimping and network connectivity testing during laboratory activities.
- Diagnosed and resolved basic computer, software, and network connectivity issues.
- Configured network settings and assisted in troubleshooting local area network (LAN) problems.
- Installed and configured Windows and Linux operating systems for academic projects.

Research Publication

Hybrid Multilayer Architecture Integrating Suricata, Wazuh, and Cyber Threat Intelligence for Drive-by-Download Malvertising Detection

- Conducted cybersecurity research on malware threat detection.
- Integrated Suricata IDS, Wazuh SIEM, and Cyber Threat Intelligence feeds.
- Evaluated multilayer security architecture for detecting Drive-by-Download attacks.
- Published in a SINTA 3 indexed journal.

LibreNMS Network Monitoring

- Implemented network monitoring infrastructure using LibreNMS.
- Monitored device availability, bandwidth utilization, and network performance.
- Configured alerting and visualization dashboards.

Smart Trash Bin IoT

- Developed an IoT-based smart waste monitoring prototype.
- Integrated water-level sensors to detect liquid accumulation and potential odor conditions.
- Implemented monitoring logic for efficient waste management.

Certifications

BNSP Certified Web Developer

LSP Universitas Dian Nuswantoro (UDINUS) | April 2026

English Proficiency Assessment (CFLT) – Score: 483

Center for Foreign Language Training (CFLT), Universitas Dian Nuswantoro | Jan 2026 – Jan 2028

Internship Certificate

Department of Communication, Informatics, Statistics and Cryptography of Semarang City | January 2025 – February 2025

Skills

Languages	:Python, PHP, JavaScript, SQL
IT Support	: Software Installation, Hardware Troubleshooting, Technical Support
Cybersecurity	:Suricata, Wazuh, Cyber Threat Intelligence, Security Monitoring, Threat Detection
Networking	: LibreNMS, Computer Networks, Network Monitoring
Operating Systems	: Linux, Windows, Kali Linux, Ubuntu
Soft Skills	:Time Management, Adaptability, Fast Learn, Problem Solving
